Welcome! Starting a chat group for us to leverage as we move forward on the Runway Announce. Group now is mainly US War Room team (spared a few finance folks + those not in the day to day). Can expand as needed.

There will be at some point for sure. Heads up we may need to change from a room to a group chat to get the right settings here (i.e., history off). LMK if any of you know how to make that tweak in a room so we can keep the sweet

curious why we moved to small dev framing? (i.e were there concerns with avoiding this framing)? just for reference, devs who make close to \$1M or just over: anghami, weight watchers, the economist, yousician etc.. so im not sure id characterize as "small" but certainly not the highest echelon of digital services earners
